

## FUEL STABILIZER

### 1. General description

Controls and reduces the formation of gum, varnish and peroxides during storage of diesel and gasoline.

### 2. Features

- Reduces gum and varnish in carburetors and fuel system parts.
- Reduces oxidation of fuel even when in contact with bronze fittings in the fuel system.
- Provides corrosion protection.
- Can be used in 2 and 4 cycle engines. In 2 cycle engines also add the normal 2 cycle oil separately to the fuel.

### 3. Applications

- A fuel stabilizer suitable for gasoline and diesel fuel.
- The gasoline application is primarily for small engines and for prolonged storage of vehicles.
- Can be used to meet the "Premium Diesel" definitions for:

1. ASTM D2274 Stability during fuel storage.
2. Thermal Fuel Stability using the 180 minute, 150°C Oxidation Test.
3. Corrosion Protection ASTM D665A or ASTM D665B.

### 4. Directions

- Mount the spout on the can.
- Pour the complete content of the can into an almost empty fuel tank. Dose is sufficient for one passenger car.
- Fill up the fuel tank as outlined in the users' manual of the engine.
- **A safety data sheet (MSDS) according to EC Regulation N° 1907/2006 Art.31 and amendments is available for all CRC products.**

### 5. Typical product data (without propellant)

Appearance	Liquid.
Color	Coloured.
Odor	Characteristic odor.
Density	0.787 g/cm <sup>3</sup> (@ 20°C).
Flash Point	38 °C (Closed Cup)

### Remarks

All statements in this publication are based on service experience and/or laboratory testing. Because
